TSF
Manual Force Test Stand

Made in America, the TSF provides tension and compression testing to 1000 lbf / 500 kgf / 5000 N with precision handwheel and worm drive elevating mechanism for gradual repeatable force application.

Force data is displayed by a selection of digital force gauges providing computer output and many other features.

Travel data is displayed by a digital travel display with computer output.

MESURgauge force testing software provides easy set up and user friendly data logging and graphing of force vs. distance for spring testing.
